Pepsicola, Kathmandu, Nepal 44600 • +977 9843620844 • soorajdv9@gmail.com • surajyadav1.com.np

SUMMARY

Full Stack dev with Backend Development expertise specializing in building scalable, high-performance applications and APIs. Skilled in system architecture design, database optimization, and real-time communication systems using Socket.io, WebRTC, and microservices. Proficient in Docker-based deployments & github actions, API integrations, and modular backend development using Node.js, Express, MongoDB, and TypeScript. Capable of taking a project from idea to production including planning, development, testing, and deployment while ensuring security, maintainability, and clean architecture.

EXPERIENCE

Freelancing, 09-2022 - currently

Backend Developer, 03/2025 - Current
Cellapp - Kathmandu, Nepal

Meetpoint (SaaS Appointment Platform)

- Designed and deployed a scalable backend supporting real-time audio/video/chat and wallet-based payments (eSewa, Khalti, Stripe, PayPal).
- Delivered a containerized production setup using Docker, ensuring reliability and easy deployment.

Astrology API Platform

- Built a modular API system providing charting, matchmaking, and astrological insights with subscription-based plans and pricing tiers.
- Optimized API performance, documentation & Managed end-to-end backend deployment through Docker containerization for consistent and efficient delivery.

Interactive Map System (Seed Bank Management)

- Developed website to display locations of seed banks on map
Enabled add/update/delete operations with location-based data visualization on map(used open source openfreemap api).

Backend Developer, 11/2024 - 02/2025

Vroom Nepal Pvt. Ltd - Kathmandu, Nepal

- Implemented JWT-based authentication, role-based access control (RBAC), and an admin management dashboard using Node.js, Express, and MongoDB.
- Built core modules for ride booking, inquiry management, review & rating, and invoice generation, integrating with real-time communication via Socket.io.

SKILLS

- Node.js
- Express.js
- Redis
- kafka
- Prisma
- Django
- Python
- Javascript
- React
- Typescript
- MongoDB
- Postgresql
- Docker
- AWS, digital ocean, cpanel

EDUCATION

Bachelor's : Computer Engineering,
09/2024

Nepal Engineering College - Kathmandu,
Nepal

Language

English, Nepali, Hindi, Maithali, Bhojpuri
